

THE ULTIMATE FOD SWEEPER GOES GREEN

Photo courtesy of BUSINESS JET CENTER

TAKE THE LEAD IN REDUCING CARBON EMISSIONS!

Widely acclaimed as the ultimate FOD sweeper, **The FOD*BOSS** is very green energy compatible.

Towing **The FOD*BOSS** with an electric vehicle will greatly reduce your sweeping carbon emissions, lower your costs, improve your sweeping efficiency and provide the cleanest and safest possible aircraft operational surface.

The FOD*BOSS is maintenance free, works on surfaces wet or dry, easy to use, low cost, reliable and portable. It works fast at up to 30 mph and can sweep 8ft, 16ft or 22ft wide!

Contact us now to arrange a free demonstration or borrow one to test for yourself.
When you see it, you **will** believe it.
